

Circuit Board Housing Removal

This guide will help you remove the housing of the LG VX8350.

Written By: Jonathan Flowers

INTRODUCTION

Use this guide in order to remove the housing of the phone.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Phillips #0 Screwdriver](#) (1)
 - [Tweezers](#) (1)
-

Step 1 — Battery

- Locate the horizontal grip located on the back cover of the phone.
- Slide the back cover down and off of the phone.

Step 2

- Insert a plastic opening tool into the battery release point located above the battery.
- Pull outwards in order to release the battery.

Step 3 — Circuit Board Housing

- Locate the 5 screws holding the body of the phone together.
- ⓘ The top screw will have a plastic cover, remove it using tweezers.
- Using a Philips head screwdriver, twist counterclockwise to remove the screws.
- Take special care with the screw located at the top of the phone. It is smaller and more likely to be damaged or improperly attached.

Step 4

- Lift the back cover starting at the bottom of the phone.

Step 5

- Remove the back cover completely from the phone.

To reassemble your device, follow these instructions in reverse order.
